- hh) The Borrower confirms that it continues to meet all benchmarks that the Borrower has stated in disclosure documents that it meets.
- ii) The Borrower confirms that where the Borrower has disclosed that it does not meet the benchmarks on an "if not, why not" basis, the disclosure the Borrower has made continues to be correct and accurate in all material respects and is not misleading.
- jj) The Borrower confirms that hereunder details the "promises" (as referred to, for instance, in RG69.118) it has made in disclosure documents it has issued and confirms that it has complied with each of the promises it has made in those disclosure documents:
 - Only promises made are as per the Benchmarks (Refer Annexure A for update) & as per the standard compilation of Prospectus No 20 which have been complied with.

ASIC Class Order CO 12/1482- When debentures can be called secured notes

jj) The Borrower confirms that its use of the term “Secured Notes” rather than “Unsecured Notes” is in accordance with the requirements so specified in the above ASIC Class Order and further confirms that the Secured Notes are first ranking.

Annexure “A” provides disclosure as to whether or not the Borrower has met each of the benchmarks outlined in ASIC Regulatory Guide 69: Secured notes – improving disclosure for retail investors.

Annexure “B” provides disclosure of the investment portfolio.

On the basis of the above, the directors declare that they are of the view that the financial position and performance of the Borrower is such that the property of the Borrower (and of each guarantor, if relevant) that is or should be available will be sufficient to repay the amount of each Secured note when it becomes due and payable.

This declaration has been made in accordance with a resolution of directors on the 23/1/2024

ASIC Regulatory Guide 69:
Secured note – improving disclosure for retail investors
Disclosure against Benchmarks

Please disclose whether the Borrower met each of the benchmarks outlined in ASIC’s Regulatory Guide 69: Debentures – improving disclosure for retail investors during the quarter. Where the Borrower did not meet a benchmark during the quarter, please explain why that is.

1. Benchmark One – Equity Ratio

ASIC’s benchmark is that issuers should use the following equity ratio benchmarks:

- a) Where more than a minor part (e.g 10%) of the issuer’s activities is property development or lending funds directly or indirectly for property development – the issuer should maintain a minimum equity of 20%
- b) In all other cases – the issuer should maintain a minimum equity ratio of 8%;
- c) The issuer’s equity ratio should be calculated as follows:

$$\frac{\text{Total Equity}}{\text{Total Liabilities} + \text{Total Equity}}$$

- d) The issuer should disclose its comparative equity ratio from the prior year.
-

Central Victorian Investments Limited (CVI) does NOT comply with ASIC’s benchmark with regards to Equity Capital.

As at 31st December 2023 the Company’s Equity Ratio was 8.98%.

Explanation - Equity capital is the money invested by the shareholders of the company. It provides a “buffer” in the event of financial difficulties and it also provides management further incentive to operate prudently and responsibly.

As at 31st December 2023 the Company’s loans for property development including sub divisional land was \$16,100,548 which represents 11.67% of our notes issued totalling \$138,016,623. CVI’s unaudited management accounts show Equity Capital or Net Assets on 31st December 2023 was \$13,860,914 compared to \$11,510,129 at 31st December 2022. In percentage terms vs total liabilities plus total equities of the company it is 8.98% vs 8.06% last year.

This means that Secured Notes of the Company carry a higher risk than they would if the Company satisfied the benchmark of 20% equity ratio.

The Company’s directors believe that as we do not lend to related parties (refer benchmark 6), and as its principal activity is to lend funds to borrowers on the security of real estate not exceeding 70% of the valuation, meaning the borrowers themselves are first injecting significant capital and equity into the same projects, our level of capital is sufficient.

2. Benchmark Two – Liquidity

ASIC's benchmark is that all issuers should:

- a) Have cash flow estimates for the next three months; and
- b) Ensure that at all times they have cash or cash equivalents sufficient to meet their projected cash needs over the next three months.

All issuers should also disclose whether they would have cash on hand or cash equivalents sufficient to meet their projected cash needs if:

- a) The percentage of note funds to be rolled over during the next three months were 20% less than the percentage that was rolled over in the past three months; or
 - b) For note funds that are held on an "at call" basis – the amount of note funds retained during the next three months were 20% less than the amount that was retained during the past three months.
-

CVI does comply with ASIC's benchmark with regards to liquidity.

Liquidity is the amount of cash or receivables that a company possesses to ensure it can readily meet any withdrawal of Secured Notes or fund the mortgage operations of the Company. As at 31st December 2023 the company held liquidity of \$33,790,738 or 24.48% of Secured Notes (this figure is variable over time). The Company maintains a minimum of 10% Liquidity and in the event that the Company's Liquidity nears 10% the Company will stop lending in order to increase the liquidity level.

The Company reviews its cash flows daily, incorporating any loan repayments, discharges or new advances and new Secured Notes or redemptions. In addition, as a condition of our Australian Financial Services Licence we also forecast over a three month period allowing for loan advances we believe will be done, any discharges we know to be coming in and Secured Notes we have been advised will not be renewing. We also make allowance for an additional five percent of rollovers not to renew based on previous history, all in attempt to ensure that sufficient liquidity will be on hand.

If the Company were to experience a 20% decrease in retaining at call funds compared to the previous three months (or the percentage of maturing Notes being rolled over in the next three months was 20% less than the percentage rolled over in the previous three months) the Company would have sufficient cash levels to meet its projected cash needs.

3. Benchmark Three – Rollovers

ASIC's benchmark is that issuers shall clearly disclose their approach to rollovers including:

- a) What process is followed at the end of the investment term; and
 - b) How they inform those rolling over or making further investments of any current Prospectus and continuous disclosure announcements.
-

CVI does comply with ASIC's benchmark with regards to Rollovers.

The Company's policy is that approximately two to four weeks prior to the maturity of a Secured Note, the Company will notify the Secured Note holder in writing, of the rates and terms upon which the funds may be reinvested for a further period. This advice also states that the Company's current Prospectus, together with any other relevant ongoing disclosure documents, will be available on our website www.cvi.net.au. Investors who do not have access to the website may request a hard copy of these documents, free of charge, by contacting the Company's registered office directly.

If instructions are not received by the Company for a renewal of a Secured Note before its maturity date, the Secured Note shall upon maturity, be reinvested for a similar term at the current rate of interest payable.

4. Benchmark Four – Debt Maturity

ASIC’s benchmark is that all issuers should disclose:

- a) An analysis of the maturity profile of interest bearing liabilities (including notes on issue) by term and value; and
- b) The interest rates, or average interest rates, applicable to their debts.

CVI does comply with ASIC’s benchmark with regard to debt maturity and discloses. The table below details the total dollar value maturing within each period.

Now holding Deposit Total \$138,016,623 @ average rate applicable of 5.15%

Maturing in	No	Amount
30 – 59 days	301	\$44,642,061
60 – 89 days	59	\$12,100,810
90 – 179 days	167	\$39,273,344
180 – 364 days	238	\$35,967,488
1 – 5 years	46	\$6,032,920

5. Benchmark Five – Loan Portfolio

ASIC’s benchmark is that issuers who directly on-lend funds, or indirectly on-lend funds through a related party, should disclose the current nature of their (or the related party’s) loan portfolio, including:

- a) How many loans they have and the value of those loans;
- b) An analysis of the maturity profile of interest bearing assets (including loan portfolio) by term and value;
- c) The interest rates, or average interest rates, applicable to the assets;
- d) By number and value, the loans they have by class of activity and geographical region;
- e) An analysis (number of loans, value of loans, value of principal and/or interest) of those loans more than 30 days past due and renegotiated loans;
- f) By number and value, what proportion of the total loan money is lent on a “secured” basis and what is the nature of the security;
- g) By number and value, what proportion of the total loan money they have lent to their largest borrower and their ten largest borrowers; and
- h) By number, value and percentage, what loans are subject to legal proceedings.

CVI does comply with ASIC’s benchmark with regard to Loan Portfolio.

All loans are advanced by the Company on a ‘secured’ basis by a registered first mortgage over real property.

Figures as at the 31st December 2023 show we now have 214 loans totalling \$117,243,749 @ average rate of 9.39%

As at the 31st December 2023 the Company’s largest loan was at \$4,474,924 representing 3.82% of our loan book & 3.24% of notes issued.

Our ten largest loans total \$26,682,088 representing 22.76% of our loan book & 19.33% of notes issued.

All loans are in fact callable within 90 days and the following is an analysis of our maturities based on notional terms:

Term to Maturity	Loans	Total Loans
0-12 months	50	\$22,842,633
13-24 months	125	\$82,873,640
25-60 months	30	\$ 7,973,210
60 + months	9	\$ 3,554,266

Loans by Class and LVR Percentages – (as at 31 December 2023)

Class	Loans	Amount by Class	LVR%
Industrial	20	\$10,350,135	39.08%
Commercial	15	\$9,631,782	33.25%
Construction/ Development	16	\$16,100,548	52.88%
Rural	17	\$6,185,075	35.46%
Sub-Divisional	0	\$00.00	00.00%
Specialised Commercial	7	\$1,920,955	28.93%
Residential	139	\$73,055,254	35.80%
Total	214	\$117,243,749	38.14%

For the sake of clarity, the Construction / Development and Subdivisional Classes referred to above, contain loans where the amount funded at the time of reporting exceeded the maximum allowable exposure vs just the as is value of the security at the time & includes added value of the incomplete construction / development works to the building or subdivision. Once works are fully completed as confirmed by either Occupancy Permits or Certificates of Compliance, then we deem that no further construction risk is involved & the loan is reclassified as per the zoning of the security.

Loans by Region – (as at 31 December 2023)

Region	Loans in Region	Amount in Region
Ballarat and District	116	\$62,401,323
Geelong and District	25	\$14,482,290
Melbourne and Surrounds	32	\$18,233,989
Horsham / Ararat	12	\$ 2,233,362
Maryborough / Bendigo	10	\$ 5,702,826
Other Victoria	19	\$14,189,959
Total	214	\$117,243,749

Loans in Arrears – (as at 31 December 2023)

As at the 31 December 2023 Central Victorian Investments had 1 loan in arrears excess of 30 days.

Loan No.	Loan Balance \$	No. of days in arrears > 30 days	Amount of Arrears in excess \$1,000	Value of Security \$	Current Valuation Date	LVR %
4748L7	\$226,805	305	\$26,805	\$533,000	1/1/20	40.42%

As at the 31 December 2023 Central Victorian Investments had 1 loan which was subject to legal proceedings.

6. Benchmark Six – Related Party Transactions

ASIC'S benchmark is that issuers who on-lend funds should disclose their approach to related party transaction, including:

- a) How many loans they have made to related parties;
 - b) The value of those loans;
 - c) The value of loans as a percentage of total assets; and
 - d) The assessment and approval process they follow with related party loans when loans are advanced, varied or extended (e.g. are they subject to the approval of the Trustee?)
-

CVI does comply with ASIC's benchmark with regards to related party transactions.

As detailed in Section 5.7 'Security and Risk Assessment of the CVI Prospectus, the Company does not permit loans to Directors, Managers, Secretaries or Shareholders of the Company. Any loans made by the company to staff members, and as at 31 December 2023 there were none, would be made on ordinary arm's-length terms.

Whilst this particular transaction is not considered a related party transaction in this sense, the Company would also like to advise that we have made a joint loan with another company that would be considered a related party as is partly controlled by one of our Directors. This joint mortgage is made under the guidelines outlined in Section 5.8 Permitted Investments on Page 11 of this Prospectus, and has been made to an unrelated third party, on standard arm's length conditions, with both parties interest noted on the mortgage as tenants in common, and our trustee has been notified, similar to as if the loan had been made jointly with other similar financial institutions which is common practice.

7. Benchmark Seven – Valuations

ASIC's benchmark is that where issuers (directly or indirectly) on-lend money in relation to property related activities, it should take the following approach to obtaining and relying upon valuation:

- a) Properties (i.e. real estate) should be valued on an "as is" and (for development property) an "as if complete" basis;
- b) Development properties should be re-valued at least every 12 months unless the funds are retained by the issuer and only released in stages to cover project completion costs;
- c) Issuers should have a clear policy on how often they obtain valuations including how recent a valuation has to be when they make a new loan;
- d) Issuers should establish a panel of valuers and ensure that no single valuer conducts more than one-third of the total number of valuations obtained; and
- e) The appointment of valuers should be with the Trustees' consent.

Issuers should also include information about the valuation of a particular property in the issuer's prospectus where:

- a) The property accounts for 5% or more of the total value of property assets of the issuer;
 - b) The property accounts for 5% or more of the total value of property assets of a related party through which the issuer has indirectly on-lent money;
 - c) A loan secured against the property accounts for 5% or more of the total value of the issuer's loan book; or
 - d) A loan secured against the property accounts for 5% or more of the total value of the loan book of a related party through which the issuer has indirectly on-lent money.
-

CVI does comply with ASIC's benchmark with regard to valuations.

The lending policies the Company has adopted to manage and control risk are contained in this Prospectus in Sections 5.7 'Security and Risk Assessment' & 5.8 'Permitted Investments'.

The company currently relies on valuations from independent and duly qualified valuers. In addition the Company reserves the right to lend up to 70% of a municipal valuation where the property is known by management or may be supported by an arm's-length purchase contract.

The company has a policy that as every loan approval is different; a decision is made in relation to each loan and its valuation requirements at the approval stage including if a municipal valuation may be used. When approving said loans the Company reserves the right to obtain on any future dates an up to date valuation of any properties held as security, at the borrower's expense.

No more than one third of the Company's valuation work is undertaken by any one valuer.

As at the 31 December 2023 CVI had no loans that exceed 5% of our loan portfolio.

8. Benchmark Eight – Lending Principals

ASIC's benchmark is that where an issuer (directly or indirectly) on-lends money in relation to property-related activities, it should maintain the following loan-to valuation ratios:

- a) Where the loan relates to property development – 70% on the basis of the latest complying valuation; and
- b) In all other cases – 80% on the basis of the latest complying valuation.

Where the loans relates to property development by a second person (even if related to the issuer), the issuers should ensure that funds raised by the issue of notes are only provided to the developer in stages, based on external evidence of the progress of the development.

CVI does comply with ASIC's benchmark with regard to lending principals – loan to valuation ratios.

CVI does not approve any loan at a loan to valuation ratio greater than 70%.

All lending for property development is made on a progressive value basis with valuations or quantity surveyor reports obtained at various stages of the development and do not exceed 70% of the "as if complete" valuation at the time of approval.
